

DIPAN KARMAKAR

Senior Web & UI Designer

Ranaghat, Nadia, West Bengal – 741201 | (+91) 6294068029 | dipankarmakar1994@gmail.com

Portfolio: www.designerdipan.in

PROFESSIONAL SUMMARY

Creative and detail-oriented Web & UI Designer with over 8 years of industry experience specializing in responsive web design, interactive dashboard interfaces, and modern front-end styling.

Proficient in translating business requirements into clean, user-centric interfaces using Figma, Photoshop, HTML5, CSS3, Bootstrap, and WordPress. Experienced with AI-assisted engineering and automation tools including Claude, Cursor, Codex, n8n, and related tools to accelerate UI prototyping, streamline logic handoff, and optimize front-end workflows.

Proven track record designing enterprise ERP/HRMS solutions, SaaS platforms, and client portals with a focus on cross-browser compatibility and seamless usability.

CORE COMPETENCIES & TECHNICAL SKILLS

- **UI/UX & Prototyping** — Figma, Adobe Photoshop, Canva, wireframing, user flows, responsive web layouts, mobile app screen design
- **Front-End Development** — HTML5, CSS3, Bootstrap, JavaScript, jQuery, cross-browser compatibility, mobile-first design
- **CMS & Back-End Familiarity** — WordPress customization and maintenance, PHP, MySQL basics
- **AI & Modern Workflows** — Claude, Claude Code / Anthropic API, Cursor, OpenAI Codex, ChatGPT, Google Gemini, v0 by Vercel; rapid UI prototyping, component scaffolding, code acceleration
- **Workflow Automation & Integration** — n8n, node-based workflow automation, webhook integrations, API orchestration, Make / Zapier basics

PROFESSIONAL EXPERIENCE

Web Designer | Encoders Technology | 2020–2025

- Architected and implemented user interfaces for corporate clients, web applications, and large-scale SaaS management portals.
- Led UI design and front-end development for complex platforms including ERP systems, HRMS dashboards, and loan management software.
- Used Claude, Cursor, and Codex to accelerate front-end component scaffolding, reduce delivery cycles, and refactor legacy CSS and JavaScript.
- Designed n8n workflow hooks for form handling, webhook triggers, and administrative notification pipelines across client setups.
- Translated client specifications into wireframes and interactive Figma prototypes, coordinating with developers to ensure design fidelity.
- Maintained and optimized corporate websites, resolving responsive layout bugs and improving page-load performance.

Web Designer | Webq Solutions | *Previous Tenure: 1 year 10 months*

- Designed custom responsive websites and multi-page web templates using HTML5, CSS3, Bootstrap, and jQuery.
- Developed and customized client websites on WordPress, configuring themes, plugins, and custom styling to meet branding standards.
- Collaborated with project managers and back-end engineers to support smooth front-end integration.

Web Designer | Aetos Technology | *Previous Tenure: 8 months*

- Created digital design assets, web banners, and responsive landing pages focused on user conversion and engagement.
- Built cross-browser-compatible layouts using standard web technologies.

Data Entry Operator | Emdee Digitronics Pvt. Ltd. (Undertaking Webel Pvt. Ltd.) | *Previous Tenure: 1 year*

- Managed systematic electronic data processing, documentation integrity, and digital records administration.

SELECTED PROJECTS

Full portfolio featuring 30+ live production sites available at designerdipan.in.

- **Finayo Platform & Loan Management System** — Designed the public corporate web presence and end-to-end loan management dashboard interface for seamless financial workflows.
- **Eve HRMS Software** — Designed user experience and modular dashboard screens for enterprise HR operations, employee records, and payroll management.
- **NEET-O-Meter & VClasses** — Engineered the student admin panel, examination test interface, and complete mobile application screens in Figma.
- **XOLO ERP & HRMS** — Crafted high-density data tables, administrative navigation structures, and responsive workflow controls.
- **Lonestar Loan Management** — Developed the core UI layout and application process interface for lending operations.

EDUCATION & CREDENTIALS

- **Diploma in Computer Science & Technology** | B.P.C. Institute of Technology, WBSCTE | **66.3% aggregate**
- **Higher Secondary, Vocational Stream** | WBSCVE&T | **72.2%**
- **Secondary Education, Madhyamik** | WBBSE
